

PICO WATER DISTRICT RECYCLED WATER RATES

Recycled Water Rates	FY 2020/21	FY 2021/22
	Past Rate	Current Rate
Volumetric Rates		
\$ per CCF	\$2.33	\$2.39
Monthly Fixed Water Service Charges		
Single Family Residential		\$16.21
5/8"	\$15.29	\$16.21
1"	\$21.05	\$35.90
1 1/2"	\$38.22	\$68.70
2"	\$61.16	\$108.07
3"	\$152.91	\$199.94
4"	\$382.26	\$331.17
6"	\$764.53	\$659.25

***Future Pass-Through Adjustments will be made whenever the Central Basin Municipal Water District Increases its wholesale rate.**

The proposed recycled water rates assume that the Central Basin Municipal Water District (CBMWD) will charge the District at \$1.74 per hundred cubic feet (CCF) through June 30, 2021. However, should they increase their source water cost to \$1.81 per CCF over the next five years, then pursuant to California Government Code 53756, the District may pass through any additional increases by the CBMWD above the projected rate listed above. Future pass-through adjustments will be implemented by increasing the District's Volumetric Rate by an amount not to exceed the level of CBMWD's rate increases (in cents per CCF) in excess of the projected CBMWD rate listed above. For example, if CBMWD increases its Recycled Wholesale Rate to \$ 1.81 per CCF on July 1, 2022, the District's Recycled Volumetric Rate could be increased by up to \$ 0.07 per CCF, equal to the difference between \$1.74 and the projected rate of \$1.81 shown above. Prior to initiating any pass-through adjustment, the District will notify all customers at least 30 days prior to implementation.
