MINUTES of BOARD MEETING 02/07/2024

MINUTES OF A REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE PICO WATER DISTRICT

A regular meeting of the Board of Directors of the Pico Water District was held in the District's Boardroom located at 4843 South Church Street, Pico Rivera, California, on Wednesday, February 7, 2024 at 5:30 p.m.

The District's General Manager, Mr. Joe D. Basulto proceeded with the roll call of the attending Board members. Present from the beginning of the meeting was Director David Angelo, Director David Gonzales, Director Pete Ramirez, Vice President Victor Caballero, President Raymond Rodriguez and Mr. Jim Ciampa and Mr. Matt Pero, Legal Counsel for the District. Pico Rivera City Manager Steve Carmona and Assistant City Manager Angelina Garcia were also in attendance.

President Raymond Rodriguez led everyone in the Pledge of Allegiance and Director David Angelo gave the invocation.

President Raymond Rodriguez proceeded to the next item on the Agenda, Public Comments. There were no comments.

President Raymond Rodriguez proceeded to the adoption of the Agenda. Vice President Victor Caballero made the motion to adopt and Director David Gonzales seconded the motion. The General Manager announced the motion passed by roll-call vote, 5 - 0.

President Raymond Rodriguez proceeded to the next item on the Agenda, approval of Consent Calendar. Director David Gonzales made the motion to approve the Consent Calendar, as presented, and President Raymond Rodriguez seconded the motion. The General Manager announced the motion passed by roll-call vote, 5–0.

President Raymond Rodriguez proceeded to the next item on the Agenda, Action/ Discussion Items. Action Item A. Discussion Item: James Jones Hydrants & Break Checks presentation by Mueller Water Works. Cris Salas reviewed several Mueller Water Works products to minimize the effect of hydrant knockoffs. He presented the begins his presentation with a introduction of himself and his position. He proceeds to shows a model J6000 and model J7000 and described the mechanics of how those products work.

President Raymond Rodriguez proceeded to the next item on the Agenda, Action/ Discussion Items. Action Item B. Consider Board Approval of Resolution 247-R Revising the District's Reserve Fund Policy. The General Manager, Joe Basulto, discussed updating the District's reserve policy to align with industry standards more closely and enhance risk management. Steve Carmona, City Manager for the City of Pico Rivera made a comment regarding action item B., requesting a continuance of the item so the City could have more time to review the District's financial information, including information regarding the proposed water rate increase. He stated he understands the need to increase rates, but is requesting more time to review the financial audit just received and allowing more time to determine if a reduced financial impact on residents could be achieved. Vice President Victor Caballero made the motion to adopt Resolution 247-R, as presented, and Director David Angelo seconded the motion. The General Manager announced the motion passed by roll-call vote, 5 - 0.

President Raymond Rodriguez proceeded to the next item on the Agenda, Action/ Discussion Items. Action Item C. Consider Board Approval of Enrollment in the Low-Income Household Water Assistance Program (LIHWAP). Office Manager, Tomas Rivera, gave a brief description of the state's Low-Income Household Water Assistance Program and answered several questions from Board members. Vice President Victor Caballero made the motion to the District's participation in LIHWAP and President Raymond Rodriguez seconded the motion. The General Manager announced the motion passed by roll-call vote, 5 - 0.

President Raymond Rodriguez proceeded to the next item on the Agenda, Action/ Discussion Items. Action Item D. Consider Board Approval of Adopting the District's Multi-Jurisdictional Hazard Mitigation Plan (MJHMP) Annex: Pico Water District. The General Manager, Joe Basulto, gave a brief background of this plan and how it was developed among numerous member agencies of the Public Water Agencies Group through federal grant funding. Vice President Victor Caballero made the motion to adopt the District's MJHMP annex and President Raymond Rodriguez seconded the motion. The General Manager announced the motion passed by roll-call vote, 5 - 0.

President Raymond Rodriguez proceeded to the next item on the Agenda, Action/ Discussion Items. Action Item E. Consider Board Approval of District's Scholarship Application Process. The General Manager, Joe Basulto, gave a brief background on the scholarship program. President Raymond Rodriguez asked to postpone indefinitely action on the scholarship program. The board had a brief discussion regarding postponing the program. President Raymond Rodriguez moved to postpone consideration of this item until the first Board meeting in September 2024 and Vice President Victor Caballero seconded the motion. The General Manager announced the motion passed by roll-call vote, 5 - 0.

President Raymond Rodriguez proceeded to the next item on the Agenda, General Manager's Report. The General Manager reported that staff had their monthly staff meeting going over the upcoming meter reading schedule and billing schedule. He also reviewed the residential turn off's with only one account remaining turned off. The following day as well was commercial turn off's with only one commercial account turned off. The commercial customer subsequently paid and water service was promptly restored. There was a mainline leak off of Elba and Paramount that District staff repaired within three hours. The General Manager and the Director of Operations attended the American Ground Water Conference earlier that day. The General Manager also reminded the Directors that on February 15, 2024 a public hearing is being held at Pico Park Community Center for consideration of the proposed rate increase.

President Raymond Rodriguez proceeded to the next item on the Agenda, Legal Counsel Report. Legal Counsel, Jim Ciampa, reported on legislation is starting to pick up, Friday February 16, 2024, is the deadline for introduction of new bills. As of Wednesday, January 31, 2024, twohundred and thirty-one Assembly bills and ninety-nine Senate bills had been introduced. He also stated he will continue to monitor bills as they are introduced.

President Raymond Rodriguez proceeded to the next item on the Agenda, Informational Items. The General Manager reported on information items, PFAS Project/ Well # 5A, and gave an update on pending permits from the State. The General Manager also reviewed the Board of Directors committee assignments for the different committees.

President Raymond Rodriguez proceeded to the next item on the Agenda, Future Agenda Items. There were none at this time.

President Raymond Rodriguez proceeded to the next item on the Agenda, Board Member Comments. Director David Angelo commented on extending the start time of the public hearing on the water rates to 6:00 p.m. on February 15, 2024. General Counsel Ciampa stated the required notice has already gone out and unfortunately it is too late to change the start time.

President Raymond Rodriguez proceeded to the next item on the Agenda, Closed Session. Closed session began at 6:56 p.m. and ended at 8:03 p.m. Closed session was held under item 12. Conference with Legal Counsel - Existing Litigation, Government Code Section 54956.9(d)(1): Pico Water District v. City of Pico Rivera, Los Angeles County Superior Court Case No. 22NWCV00967. The Board was briefed on the facts and circumstances and current status of that matter and no reportable action was taken.

There being no further business to come before the Board, the Board meeting adjourned at 8:03 p.m. Next Regular Board Meeting to be held on February 21, 2024 at 5:30 pm, with a Special Board Meeting to take place at 5:30 p.m. on February 15, 2024 to consider the proposed rate increases.

Raymond Rodriguez, President

Attest:

Joe D. Basulto, Secretary (Seal)

Board of Directors Pico Water District Pico Rivera, California

Independent Auditors' Report

Opinion

We have audited the accompanying financial statements of Pico Water District (the "District"), as of and for the eighteen month period ended June 30, 2023, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2023, and the changes in its financial position and cash flows for the eighteen month period ended June 30, 2023 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

438 Old Newport Blvd – Newport Beach, CA 92663 Phone (949) 346-2900 –<u>www.gruberlopezinc.com</u> • Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed on the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedules of detailed operating revenues and detailed operating expenses is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of detailed operating revenues and detailed operating expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required By Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Gruber and Lopez, Anc.

Newport Beach, California January 29, 2024

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the District's annual financial report presents our analysis of the District's financial performance during the fiscal year that ended on June 30, 2023. Please read it in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's net position increased by \$1,900,826. Operating revenue and expenses both increased compared to the prior period due to the 18-month reporting period ending June 30, 2023.
- Nonoperating revenues increased by \$152,801 due to an increase in capital contributions in fiscal year 2023 relating to PFAS treatment.
- The combined effect of these items resulted in an overall increase in the District's net position for fiscal year 2023.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of two parts: Management's Discussion and Analysis and the Financial Statements. The Financial Statements also include notes that explain in more detail some of the information in the Financial Statements.

REQUIRED FINANCIAL STATEMENTS

The Financial Statements of the District report information about the District using accounting methods similar to those used by private sector companies. These statements offer short-term and long-term financial information about its activities. The Statement of Net Position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing the rate of return, evaluating the capital structure of the District, and assessing the liquidity and financial flexibility of the District. All the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine whether the District has successfully recovered all its costs through its user fees and other charges, profitability, and credit worthiness.

The final required Financial Statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what cash was used for, and what was the change in cash balance during the reporting period.

FINANCIAL ANALYSIS OF THE DISTRICT

Our analysis of the District begins on page 9. One of the most important questions asked about the District's finances is "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position, and the Statement of Revenues, Expenses and Change in Net Position report information about the District's activities in a way that will help answer this question. These two statements report the net position of the District and changes in them. You can think of the District's net position - the difference between assets, liabilities and deferred outflows and inflows of resources - as one way to measure financial health or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. However, you will need to consider other nonfinancial factors such as changes in economic conditions, population growth, zoning, and new or changed government legislation.

NET POSITION

To begin our analysis, a summary of the District's Statements of Net Position is presented in Table 1.

TABLE 1

Condensed Statements of Net Position

	 Year 2023	 Year 2021	 Dollar Change
Assets:			
Current and Other Assets	\$ 3,908,680	\$ 3,697,071	\$ 211,609
Capital Assets	 20,592,637	 19,024,092	 1,568,545
Total Assets	24,501,317	 22,721,163	 1,780,154
Deferred Outflows of Resources:			
Deferred Amount Pension Obligation	662,971	235,929	427,042
Deferred Amount OPEB Obligation	 237,950	158,563	 79,387
Total Deferred Outflows	900,921	 394,492	506,429
Liabilities:			
Current Liabilities	1,433,976	1,342,814	91,162
Noncurrent Liabilities	 8,047,294	 7,237,261	 810,033
Total Liabilities	9,481,270	8,580,075	901,195
Deferred Inflows of Resources:			
Deferred Amount Pension Obligation	204,294	614,887	(410,593)
Deferred Amount OPEB Obligation	 303,265	 408,110	 (104,845)
Total Deferred Inflows	507,559	 1,022,997	(515,438)
Net Position			
Net Investment in Capital Assets	14,125,340	12,390,708	1,734,632
Unrestricted	 1,288,069	 1,121,875	166,194
Total Net Position	\$ 15,413,409	\$ 13,512,583	\$ 1,900,826

As can be seen in Table 1, the District's net position increased by \$1,900,826 from fiscal year 2021 to 2023. The net position increase of \$1,900,826 combines an increase to Net Investment in Capital Assets of \$1,734,632 and a \$166,194 increase in Unrestricted Net Position.

NET POSITION (CONTINUED)

TABLE 2

Condensed Statements of Revenues, Expenses, and Change in Net Position

	Year 2023	Year 2021	Dollar Change
Revenues	 	 	
Operating Revenues Nonoperating Revenues	\$ 6,643,398 2,171,590	\$ 4,243,404 2,018,789	\$ 2,399,994 152,801
Total Revenues	 8,814,988	6,262,193	 2,552,795
Expenses			
Depreciation Expense	824,388	775,955	48,433
Other Operating Expenses	5,656,043	3,766,651	1,889,392
Nonoperating Expense	 433,731	 246,662	 187,069
Total Expenses	 6,914,162	 4,789,268	 2,124,894
Change in Net Position	1,900,826	1,472,925	427,901
Net Position - Beginning of Year	 13,512,583	 12,039,658	 1,472,925
Net Position - End of Fiscal Year	\$ 15,413,409	\$ 13,512,583	\$ 1,900,826

A closer examination of the source of changes in net position reveals that the District's total revenues increased by \$2,552,795 between fiscal years 2023 and 2021. Both Operating Revenues and Expense increased notably due to the modified reporting period for the 18-month period ending June 30, 2023. Nonoperating Revenues increased by \$152,801 primarily due to increased capital contribution related to PFAS treatment projects.

CAPITAL ASSETS AND DEBT ADMINISTRATION CAPITAL ASSETS

At June 30, 2023, the District's investments in a broad range of infrastructure, as shown in Table 4, totaled \$20,592,637.

TABLE 3

Capital Assets

	Balance at nuary 1, 2022_	 Additions	 letions and Fransfers	Ва	lance at June 30, 2023
Capital Assets:					
Nondepreciable Assets	\$ 3,085,442	\$ 2,458,619	\$ (447,205)	\$	5,096,856
Depreciable Assets	26,803,963	496,526	(278,619)		27,021,870
Accumulated Depreciation and Amortization	(10,865,312)	 (824,388)	 163,611		(11,526,089)
Total Capital Assets, Net	\$ 19,024,093	\$ 2,130,757	\$ (562,213)	\$	20,592,637

The major capital asset additions for the year ended June 30, 2023 included:

- Well #8 Rehabilitation \$109,773
- 9200 Whittier Fire Hydrant Line \$63,130
- Vehicle Replacement \$48,052
- LA County Sheriff Fire Sprinklers \$45,609
- Well #11 Generator \$41,527
- Well #4 Rehabilitation \$36,418
- Valve Replacements \$17,536
- Meter Replacements \$14,128

Additional information regarding capital assets can be found in Note 3 to the financial statements.

DEBT ADMINISTRATION

At year-end, the District had outstanding debt in the amount of \$6,369,696 consisting of two infrastructure loans from IBank. This is fully discussed in Note 5 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's Board of Directors and management will consider many factors when setting the 2023 budget including user fees, potential water sales, water usage patterns, and increases by regulatory agencies, utilities, and staffing requirements.

CONTACTING THE DISTRICT'S FINANCIAL MANAGER

This financial report is designed to provide our citizens, customers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the General Manager, Mr. Joe Basulto at Pico Water District.

Total adjustments		735,554
Net cash provided (used) by operating activities	\$	898,521

See accompanying notes to the basic financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2023

(1) Summary of Significant Accounting Policies

a. Nature of Organization

Pico Water District (the "District") was formed June 22, 1926, pursuant to the provisions of the State of California. The District currently encompasses 1,536 acres and operates six wells, five of which are in use and one of which is inactive, and a 1.25 million gallon reservoir. The purpose of the District is to finance, construct, operate, and maintain a water system to serve properties within the District's boundaries.

b. <u>Basis of Accounting</u>

The District's activities are accounted for in an enterprise fund. An enterprise fund is a proprietary-type fund used to account for operations that are financed and operated in a manner similar to a private business enterprise – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis is financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

c. <u>Measurement Focus and Basis of Accounting</u>

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transaction are recorded regardless of the measurement focus applied. The accompanying financial statements are reported using the economic resources measurement focus, and the accrual basis of accounting. Under the economic measurement focus all assets and liabilities (whether current or noncurrent) associated with these activities are included on the statement of net position. The statement of revenues, expenses, and change in net position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

d. Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents have been defined as cash and short-term investments, which have a maturity of three months or less. At June 30, 2023, the District invested with the State Treasurer's Local Agency Investment Fund (LAIF). This is a pooled money investment account and is considered to be a cash equivalent.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

e. Accounts Receivable

The District grants unsecured credit to its customers. Bad debts are accounted for using the direct write off method. Management believes that the bad debt expense under this method approximates the expense that would be recorded using the allowance method.

f. <u>Inventory</u>

Inventories maintained by the District consist primarily of pipes, construction materials, and maintenance supplies. Inventories are priced at the lower cost or market, determined on a first-in, first-out basis.

g. Capital Assets and Depreciation

Capital assets are stated at historical cost, net of accumulated depreciation. In accordance with its capitalization policy, the District has set the capitalization threshold for reporting capital assets at \$5,000 and a useful life that is more than one year. Depreciation is recorded on the straight-line basis over the estimated useful lives.

The ranges of lives used for computing depreciation for each capital asset class are as follows:

Wells and reservoirs	20-50 years
Wells and reservoirs equipment	5-10 years
Pumps and tanks	20-25 years
Water treatment equipment	5-10 years
Transmission and distribution	15-50 years
General plant and other	5-25 years

Maintenance and repairs are charged as expenses as incurred. Significant renewals and betterments are capitalized.

h. Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period. The deferred outflows of resources related to pension and OPEB resulted from District contributions subsequent to the measurement date of the actuarial valuation and the effects of actuarially-determined changes. These amount are deferred and amortized as detailed in Note 6 for pension and Note 7 for OPEB to the financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

i. <u>Compensated Absences</u>

Vested or accumulated vacation and sick leave is recorded as an expense and liability as benefits accrue to employees, in accordance with the District policy.

j. <u>Net Pension Obligation</u>

For purposes of measuring the net position liability and deferred outflows/inflows of resources related to pensions, the pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and addition to/deduction from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment are reported at fair value.

k. <u>Postemployment Benefits Other than Pensions (OPEB)</u>

The District participates in a single employer defined benefit postemployment health care plan. For purposes of measuring the net OPEB liability, deferred outflows of resources and OPEB expense information about the fiduciary net position of the District Retiree Benefits Plan (the Plan), and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes payments when due and payable in accordance with the benefit terms.

1. <u>Deferred Inflows of Resources</u>

Deferred inflows of resources represents an acquisition of resources applicable to future periods. The deferred inflows of resources related to pensions and OPEB results from the difference between the estimated and actual return on pension plan investments, the effect of changes in proportion and changes in assumptions, and the difference between expected and actual experience. These amounts are deferred and amortized as detailed on Note 6 for pensions and Note 7 for OPEB to the financial statements.

m. <u>Net Position</u>

Net position of the District can be classified into three components: net investment in capital assets, restricted, and unrestricted. These classification are defined as follows:

<u>Net Investment in Capital Assets</u> – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation, and the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

m. <u>Net Position (continued)</u>

If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

<u>Restricted</u> – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributions, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. As of June 30, 2023, the District did not have restricted net position.

<u>Unrestricted Net Position</u> – This component of net position consists of net position that does not meet the definition of the "net investment in capital assets" or "restricted".

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

n. Operating Revenue and Expenses

Operating revenues and expenses, such as water sales and services, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as investment income and rental income, result from nonexchange transactions or ancillary activities in which the District gives (receives) value without directly receiving (giving) equal value in exchange. Operating expenses include the cost of sale and services, administrative expenses, and depreciation on capital assets.

o. <u>Revenue Recognition</u>

Revenue is recognized and account receivable recorded as water services are provided. This includes estimated charges for water services delivered prior to year-end and billed during a subsequent billing cycle.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

p. <u>Use of Estimates</u>

The preparation of financial statement in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results could differ from those estimates.

q. Leases Payable and Subscription Agreements Payable

Lessee: The District recognizes a lease or subscription agreement liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$25,000 or more.

At the commencement of a lease or subscription agreement, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other assets and lease liabilities are reported with longterm debt on the Statement of Net Position. The District currently has no lease or subscription agreement liabilities that met the criteria of GASB Nos. 87 and 96.

Lessor: The District recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

q. <u>Leases Payable and Subscription Agreements Payable (continued)</u>

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of the lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key elements and judgement include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts. The District uses it estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included In the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable. The District currently has no lease revenues that met the criteria of GASB No. 87.

r. <u>New Accounting Pronouncements</u>

The District adopted Statement on Governmental Accounting Standards (GASB Statements) No. 91-Conduit Debt Obligations and No. 96-Subscription Based Information Technology Software. The adoption of the GASB Nos. 91 and 96 did not significantly impact the District.

(2) Cash and Investments

Cash and investments at June 30, 2023 are as follows:

Cash on hand	\$	500
Deposits held with financial institutions	:	879,055
Investments in Local Agency Investment Fund	1,:	566,067
Total cash and investments	<u>\$ 2,4</u>	445 <u>,622</u>

Investments Authorized by the California Government Code and the District's Investment Policy

The following table identifies the investment types that are authorized for the District by the California Government Code and the District's investment policy. The table also

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(2) Cash and Investments (continued)

identifies certain provisions of the California Government Code (or the District's investment policy, if more restrictive) that address interest rate risk and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

Investment Types	Maximum <u>Maturity</u>	Maximum Percentage <u>Of Portfolio</u>	Maximum Investment <u>in One Issuer</u>
U.S. Treasury Bills, Bonds and Notes	5 years	None	None
U.S. Government Agency Securities	5 years	None	None

Commercial Paper	270 days	25%	10%
Medium Term Notes	5 years	30%	None
Local Agency Investment Fund (LAIF)	N/A	None	None
County Pooled Investment Funds	N/A	None	None
Joint Powers Authority Pool	N/A	None	None
Mutual Funds and Money Market Mutual Funds	5 years	20%	10%

Concentration of Credit Risk

The District follows the investment policy as stipulated by the California Government Code as to the amount it may invest in any one issuer. At June 30, 2023, the District had no concentration of credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District has limited exposure to interest rate risk as all funds are currently invested in short term investments.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District investments by maturity at June 30, 2023.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(2) Cash and Investments (continued)

	Remainin			
	Less than	1 to 3	4 to 5	
Investment Type	<u>1 Year</u>	Years	Years	Total
Local Agency Investment Fund	<u>\$1,566,067</u>			1,566,067
Total	<u>\$1,566,067</u>			1,566,067

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in LAIF are not rated.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for investments is the risk that, in the event of the failure of a counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government

Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an individual collateral pool held by a depository regulated under state law (unless so waived by the government unit). The market value of the pledged securities in the collateral pool must equal at least 150% of the total amount deposited by the public agencies.

Investments in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(2) Cash and Investments (continued)

Fair Value Hierarchy

The District follows the provisions of GASB Statement No. 72 *Fair Value Measurement and Application* which requires the District to categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investments in LAIF are uncategorized as deposits and withdrawals are made on the basis of \$1 and not fair value.

(3) Capital Assets

Capital asset activity for the year ended June 30, 2023 is as follows:

Description	Beginning <u>Balance</u>	Additions	Deletions	Ending <u>Balance</u>
Non-depreciable: Land and easement Water rights Construction in process	\$ 417,363 216,000 2,452,079	- 2,458,619		417,363 216,000 4,463,493

Depreciation expense for the year ended June 30, 2023 was \$824,388.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(4) Risk Management

The District is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. In an effort to manage its risk exposure, the District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (the "Authority").

The Authority is a risk-pooling self-insurance authority, organized under a joint powers agreement pursuant to California Government Code §6500, et seq. The purpose of the Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group-purchased insurance for property and other coverages.

At June 30, 2023, as a member of the Authority, the District participated in the insurance programs as follows:

<u>Property Loss</u>. The Authority has pooled self-insurance up to \$100,000,000 per occurrence and has purchased excess insurance coverage of \$500,000,000 (total insurable value \$5,980,343). The District has a \$1,000 deductibles for buildings, personal property, fixed and mobile equipment, and licensed vehicles.

<u>General Liability</u>. The District is insured up to \$55,000,000 per occurrence with no deductible; the Authority is self-insured up to \$5,000,000 and excess insurance coverage of \$50,000,000.

<u>Automobile Liability</u>. The District is insured up to \$55,000,000 per occurrence with no deductible; the Authority is self-insured up to \$5,000,000 and excess insurance coverage of \$50,000,000.

<u>Workers' Compensation</u>. The District is insured for statutory limits. The District is insured up to \$4,000,000 per accident. The Authority is self-insured up to \$2,000,000 and excess insurance coverage has been purchased.

<u>Public Official's Liability</u>. The District is insured for error and omissions up to \$55,000,000 per occurrence with no deductible; the Authority is self-insured up to \$5,000,000 and excess insurance coverage of \$50,000,000.

<u>Employee Dishonesty/Crime Coverage</u>. The District is insured up to \$100,000 per occurrence with \$1,000 deductible for employee dishonesty, forgery or alternation, computer fraud and ERISA.

Earthquake and Flood. The District is insured up to \$25,000,000 per occurrence with a 5% of the total insurable values (\$4,782,393) at the time of loss, subject to a \$25,000 minimum per occurrence. The flood deductible is \$25,000 per occurrence.

The District pays annual premiums for the coverages. There were no instances in the past three years when a settlement exceeded the District's coverage.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(5) Notes Payable

As of June 30, 2023, the District had entered into two Installment Sale Agreements with California Infrastructure and Economic Development Bank in the amounts of \$2,020,200 and \$5,250,000, respectively. The proceeds of the loans are held by a fiscal agent and are released as infrastructure expenditures are incurred. The loans bear interest at 3.84% per annum. Principal payments commenced in August 2017 and are due annually. Interest payments commenced February 2017 and are payable biannually. The total future debt obligations under these agreements are as shown below.

Year Ending, December 31	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2024	\$ 169,922	231,124	401,046
2025	176,155	224,776	400,931
2026	182,619	218,193	400,812
2027	189,321	211,368	400,689
2028	196,269	204,290	400,559
2029-2033	1,094,900	905,799	2,000,699
2034-2038	1,311,411	685,290	1,996,701
2039-2043	1,570,992	420,915	1,991,907
2044-2046	1,478,107	111,345	1,589,452
Total	<u>\$6,369,696</u>	3,213,100	9,582,796

The schedule below summarizes changes in long-term debt during the year ended June 30, 2023:

	Beginning <u>Balance</u>	Additions	Deletions	Ending <u>Balance</u>	Amounts Due within <u>One Year</u>
Direct borrowing:					
California Infrastructure	\$4,730,950	-	116,069	4,614,881	120,526
Economic Development Bank	1,802,656	<u> </u>	47,841	1,754,815	49,396
Total	<u>\$6,533,606</u>		163,910	<u>6,369,696</u>	169,922

For the year ended June 30, 2023, the District incurred \$355,200 of interest expense.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(6) Defined Benefit Pension Plans

The District participates in a cost sharing multiple-employer defined benefit plan through the California Public Employees' Retirement System (CalPERS) which covers substantially all regular full-time employees of the District. CalPERS acts as a common investment and administrative agent for participating public entities within the state of California and reports information to the District in accordance with reporting standards established by GASB.

The District had implemented all applicable GASB statements related to the area of pension plans and as a result, reported its proportionate share of the net pension liability, pension expense, deferred outflows of resources, and deferred inflow of resources for the above plan as shown in the table below:

	Proportionate Share of Net	Deferred	Deferred	Proportionate Share of
Pension Plan	Pension Liability	Outflows of Resources	Inflows of Resources	Pension Expense
CalPERS	\$954,472	\$662,971	\$204,295	\$182,700

<u>Plan Description</u> – Qualified employees are eligible to participate in the Public Agency Cost-Sharing Multiple Employer Plan under the CalPERS plan, a cost-sharing multipleemployer public employee retirement system defined benefit pension plan administered by CalPERS. The Public Agency Cost-Sharing Multiple-Employer Plan is comprised of a Miscellaneous Risk Pool and a Safety Risk Pool. Individual employers may sponsor more than one Miscellaneous or Safety Plan. The District sponsors one Miscellaneous Risk Pool plan and the information presented below represents the allocated pension amounts for the District's plan (the Plan). The Plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statues, as legislatively amended, within the Public Employees' Retirement Law.

<u>Plan Provided</u> – The Plan provides service retirement and disability benefits, annual costof-living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on year of service credit, a benefit factor, and the member's final compensation. Members hired by the District, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for employment-related disability benefits regardless of length of service and nonduty disability benefits after four years of service. Disability benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The Postretirement Death Benefit is a one-time payment made to a retiree's designated survivor or estate upon the retiree's death. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(6) Defined Benefit Pension Plans (continued)

the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013) and has at least five years of credited service.

The cost-of-living adjustments for the Plan are applied as specified by the Public Employees' Retirement Law.

The Plan provisions and benefits in effect at June 30, 2023, are shown below:

	Miscellaneo	Miscellaneous Risk Pool	
	Classic	PEPRA	
	Prior to January	On or After	
Hire Date	1, 2013	January 1, 2013	
Benefit Formula	2% at 55	2% at 62	
Benefit Vesting Schedule	5 years service	5 years service	
Benefit payments	monthly for life	monthly for life	
Retirement age	50	52	
Required employee contribution rates	6.92%	7.25%	
Required employer contribution rates	11.65%	7.65%	

<u>Contributions</u> – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rate for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined annually through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarial determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for the fiscal year ended June 30, 2023 are presented above and the total District required contributions to the Plan were \$142,698.

<u>Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred</u> <u>Inflows of Resources Related to Pensions</u> – As of June 30, 2023, the District reported net pension liability for its proportionate share of the Miscellaneous Risk Pool net pension liability totaling \$954,472. As permitted by GASB standards, the net pension liability was determined based upon the measurement date of June 30, 2022. The District's proportion of the net pension liability was based on a projection of the District's longterm share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the District's Plan as of the June 30, 2022 and 2021 was as follows:

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(6) Defined Benefit Pension Plans (continued)

	Miscellaneous
Proportion – June 30, 2021	0.004047%
Proportion – June 30, 2022	0.020398%
Change – Increase (Decrease)	0.016351%

For the year ended June 30, 2023, the District recognized pension expense of \$182,700. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions form the sources as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to		
measurement date	\$ 142,698	-
Change in proportion	143,724	-
Net difference in actual contributions vs.		
proportionate share of contributions	-	(188,052)
Net difference between expected and		
actual experience	30,461	(16,243)
Net differences between projected and		
actual earnings on plan investments	222,334	-
Change in assumptions	123,754	
Total	\$ 662,971	(204,295)

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net position liability in the year ended June 30, 2023. The net difference between projected and actual earnings on the plan investment is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expenses during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement period on a net basis.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for CalPERS Miscellaneous Risk Pool Plan for the June 30, 2022 measurement date is 3.8 years. The first year of amortization is recognized in pension expense for the year the gain or losses occurs. The remaining amounts are deferred and will be amortized over the remaining period not to exceed 2.8 years.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(6) Defined Benefit Pension Plans (continued)

Remaining amounts will be recognized to pension expense as follows:

Year Ended	
June 30	_
2024	\$ 72,019
2025	72,935
2026	27,803
2027	143,221
	<u>\$ 315,978</u>

<u>Actuarial Methods and Assumptions</u> – The total pension liability for the Plan was determined by applying update procedures to an actuarial valuation as of June 30, 2020, which was rolled forward to the June 30, 2022 measurement date. As permitted by GASB standards, the District's net pension liability was determined based upon the measurement date of June 30, 2022.

The financial reporting actuarial valuation as of the June 30, 2021 used the methods and assumptions herein, applied to all prior periods included in the measurement.

	Miscellaneous
Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost
	Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Payroll Growth	2.80%
Projected Salary Increase	Varies by Entry Age (1)
Investment Rate of Return	6.80% (2)
Mortality	Varies (3)

(1) Depending on age, service and type of employment.

- (2) Net of pension plan investment expenses, including inflation.
- (3) The mortality table used was developed based on CalPERS' specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details, please refer to the 2021 experience study report that can be found on the CalPERS website.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(6) Defined Benefit Pension Plans (continued)

<u>Discount Rate</u> – The discount rate used to measure the total pension liability was 6.90%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested employer rate plans within the Plan that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested employer rate plans run out of assets. Therefore, the current 6.90% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The stress test results are presented in a detailed report, *GASB Statements 67 and 68 Crossover Testing Report for Measurement Date June 30, 2022 based on June 30, 2021 Valuations,* that can be obtained from the CalPERS website.

According to Paragraph 30 of GASB 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. For the CalPERS Plan, the 6.80% investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 10 basis points. An investment return excluding administrative expenses would have been 6.90%. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account longterm market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and, combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The expected real rates of return by asset class are as follows:

	Assumed Asset	Real
Asset Class (a)	Allocation	Return (b) (c)
Public Equity	18.00%	4.50%
Fixed Income	45.00%	1.40%
TIPS	20.00%	0.50%
Commodities	3.00%	1.10%
REITs	14.00%	3.70%
Total	100.00%	

- (a) Commodities and REITs are included in Public Equity; TIPS are included in fixed Income.
- (b) An expected inflation 0f 2.3% used for this period.
- (c) Figures are based on the 2021-22 Asset Liability Management study.

(6) Defined Benefit Pension Plans (continued)

<u>Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u> – The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Miscellaneous
1% Decrease	5.90%
Net Pension Liability	\$1,709,158
Current Discount Rate	6.90%
Net Pension Liability	\$954,472
1% Increase	7.90%
Net Pension Liability	\$333,552

Detailed information about CalPERS Miscellaneous Risk Pool Plan fiduciary net position is available in a separate annual comprehensive financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

(7) Other Post Employment Benefits (OPEB)

In addition to the pension benefits described in Note 6, the District provides a postretirement health care benefit for retired employees and directors who have served the District full-time for at least five consecutive years and who are at least 55 years of age at the time of retirement, and spouses. In accordance with statutory requirements, a director must have commenced his or her service on or before January 1, 1995, in order to be entitled to receive District-paid health insurance after completing service on the board.

<u>Funding Policy</u> – The contribution requirements of the plan are set by the District and the District's Board of Directors. Currently, contributions are not required from plan members. The District has established a trust to fund other postemployment benefits (OPEB). The required contribution is based on projected pay-as-you-go financing requirements with an additional amount to prefund benefits as determined annually by the District. The District contributed \$135,000 to the Retiree Benefit Trust for the year ended June 30, 2023 and \$26,294 in employer contributions for the year ended June 30, 2023, including the implicit rate subsidy. The table herein shows the participants as of June 30, 2022.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(7) Other Post Employment Benefits (OPEB) (continued)

Active employees	9
Inactive employees or beneficiaries currently receiving benefits	2
Inactive employees entitled to, but not yet receiving benefits	_
Total	<u>11</u>

<u>Net OPEB Liability (Asset)</u> – The table below shows the components of the net OPEB liability of the District:

Total OPEB Liability	\$1,692,806
Plan Fiduciary Net Position	(910,111)
District's Net OPEB Liability (Asset)	\$ 782,695
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability (Asset)	53.76%

<u>Investments</u> – As June 30, 2023, all Plan investments are held in the California Employers' Retiree Benefit Trust program (CERBT) through CalPERS.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u> – At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the sources as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change in assumptions	\$ 131,747	-
Difference between expected and actual experience	8,522	(303,265)
Difference between projected and actual return on investments	97,681	
Total	\$ 237,950	(303,265)

The deferred outflows of resources results from a change of assumptions and is amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the OPEB plan for June 30, 2023 is five years. The year of amortization is recognized in OPEB expense for the year the gain or loss occurs. The remaining amount is deferred and will be amortized over the remaining periods not to exceed four years.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(7) Other Post Employment Benefits (OPEB) (continued)

The deferred inflows of resources related to OEPB resulting from the net differences between projected and actual earnings on the plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period.

The deferred inflows of resources related to OPEB resulting from the net differences between projected and actual experience is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year Ended	
June 30	
2024	\$ 4,767
2025	5,482
2026	3,683
2027	22,641
2028	(15,277)
Thereafter	(86,611)
	<u>\$ (65,315</u>)

<u>Actuarial Methods and Assumptions</u> – The District's net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021. Liabilities in this report were calculated as of the valuation date.

The total OPEB liability was determined by using the actuarial assumptions shown herein, applied to all periods included in the measurement, unless otherwise specified.

Actuarial Assumptions:	
Investment rate of return	6.5%
Projected salary increase	2.75%
Medical cost trend rate	4.0%
Mortality	4.0% (1)

(1) Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection. Post-retirement mortality rates were based on the RP-2014 Health Annuitant Mortality Table for Males or Females, as appropriate, without projection.

NOTES TO BASIC FINANCIAL STATEMENTS

(Continued)

(7) Other Post Employment Benefits (OPEB) (continued)

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Shown herein is the assumed asset allocation and assumed rate of return for each asset class:

	Percentage	Assumed
Asset Class	of Portfolio	Gross Return
All Equition	40.0%	7.545%
All Equities		
All Fixed Income	43.0%	4.250%
Real Estate Investment Trusts	8.0%	7.250%
All Commodities	4.0%	7.545%
Treasury Inflated Protected Securities (TIPS)	5.0%	3.000%
Total	100.0%	

<u>Discount Rate</u> – The discount rate used to measure the OPEB liability was 6.25 percent. It is assumed that contributions would be sufficient to fully fund the obligation over a period not to exceed 30 years. Historic 34-year real rates for each asset class were used, along with an assumed long-term inflation assumption, to set the discount rate. The expected investment return was offset by investment expenses of 25 basis points. Rolling periods of time for all assets, in combination, were reviewed to appropriately reflect the correlation between asset classes. That means that the average returns for any asset class will not necessarily reflect the averages over time individually, but do reflect the return for the asset class for the portfolio average. Geometric means were used.

Since the most recent valuation, there were no changes to the actuarial assumptions.

OPEB Liability (Asset)	\$1,150,597

<u>OPEB Expense</u> – For the year ended June 30, 2023, the District recognized OPEB expense of \$107,598.

(8) Commitments and Contingencies

 $\underline{\text{Litigation}}$ – In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

<u>Grants</u> – The District receives several government grants which are subject to audit by the government. The ultimate determination of amounts received under these programs generally is based upon allowable costs reported to and audited by the government. Until such audits have been completed and final settlement reached, there exists a contingency to refund any amount received in excess of allowable costs. Management is of the opinion that no material liability will result from such audits.

(9) Subsequent Events

Management has evaluated subsequent events through January 29, 2024, which is the date the financial statements were available to be issued, and has determined that there are no transactions that will have a significant impact on the District.

Notes to Schedule:

Benefit Changes: There were no changes in benefits.

Changes in assumptions:

<u>From fiscal year 6/30/15 to 6/30/16</u>: GASB 69 paragraph 68 states that the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expenses. The discount rate of 7.5% used for the June 30, 2014 measurement date was net of administrative expenses. The discount rate of 7.65% used for the June 30, 2015 measurement date is without reduction of pension plan administrative expense.

From fiscal year June 30, 2016 to June 30, 2017: There were no changes in assumptions.

From fiscal year June 30, 2017 to June 30, 2018: The discount rate was reduced from 7.65% to 7.15%.

<u>From fiscal year June 30, 2018 to June 30, 2019</u>: Demographic assumptions and inflation rate were changed in accordance with the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. Inflation was reduced from 2.75% to 2.50%.

From fiscal year June 30, 2019 to June 30, 2021: There were no changes in assumptions.

* - Fiscal year 2015 was the first year of implementation, therefore only eight years are shown. The District changed fiscal years from December 31 to June 30 after fiscal year ending December 31, 2021 which is why no data exists for 2022.

Board of Directors Pico Water District Pico Rivera, California

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Pico Water District as of and for the eighteen month period ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Pico Water District's basic financial statements, and have issued our report thereon dated January 29, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Pico Water District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pico Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of Pico Water District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, maternal weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. Board of Directors Pico Water District Page Two

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pico Water District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests noted on instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

DISCUSSION ITEM - 7B

B. Consider Board Approval of the 2022/2023 Audit Report completed by the auditing firm Gruber and Lopez, Inc. Recommended Action – that the Board receive and file the 2022/2023 Audit Report submitted by Gruber and Lopez, Inc.

STAFF REPORT

To:	Honorable Board of Directors
From:	Joe Basulto, General Manager
Meeting Date:	February 21, 2024
Subject:	Action Item 7B – Consider the 2022/2023 Audit Report completed by the auditing firm Gruber and Lopez, Inc.

RECOMMENDATION

That the Board accept and file the 2022/2023 Audit Report completed by the auditing firm Gruber and Lopez, Inc.

FISCAL IMPACT

The audit cost was approved in the District's 2023 Operating Budget.

BACKGROUND

The District is required to have an audit performed on the District's financial dealings each year to show that the District is reporting its financial activity in a fair and transparent manner. When auditors arrive, they go through and test the District's financial documents to see if the District is following its designated policies, is documenting all financial dealings such as contract documentation, and they check to see that internal controls are in place to prevent fraud from occurring. The audit is not meant to be a complete review of all transactions that took place over the past year, however the audit should and does represent the results of any tests performed on the District's financial transactions that reflect whether or not the District is following good Governmental Accounting Standards and Procedures, and doing everything possible to assure that it is dealing properly with the public's money.

This year's audit represents work performed by Gruber and Lopez, Inc. was based on a 18-Month audit from January 01, 2022 – June 30, 2023

DISCUSSION ITEM - 7C

C. Consider Board Approval Authorizing the General Manager to withdraw \$200,000 from the District Reserve California Class account to fund payment for PFAS Removal Treatment Project – Recommend Board Discuss and Approve

STAFF REPORT

To:Honorable Board of DirectorsFrom:Joe D. Basulto, General ManagerMeeting Date:February 21, 2024Subject:Action Item 7C – Consider Board Approval Authorizing the General Manager
to withdraw of \$200,000 from the District Reserve California Class account to
fund payment for PFAS Removal Treatment Project – Recommend Board
Discuss and Approve

Recommendation:

That the Board approve and authorize General Manager to withdraw and fund project / account

Fiscal Impact:

Negative impact on Districts Reserve Account

Background:

The District Reserve account in California Class is at a total of \$724,400.71 authorizing General Manager to withdraw of \$200,000 would leave a balance of \$524,400.71 in the Ca. Class account.

Withdraw is to be applied to Money Market Account, to recoup the cost that was paid to Contractor & Engineering work for the PFAS Project.

JANUARY 2024

WATER LEVELS REPORT

Water Levels for January 2024

Listed below are the water levels for the two key monitoring wells used by the Water Replenishment District of Southern California (WRD), and the District's active wells.

WRD is charged with monitoring the water levels in both the Central Basin and West Coast Basin, and with making sure both basins are replenished annually. As a means of monitoring the levels in both basins WRD measures the depth of water in two specific wells, 1601T located in between the San Gabriel River and the Rio Hondo spreading grounds, and the second Carson #1 located in the City of Carson. WRD compares the levels of these two wells month to month, and year to year as a means of gaging the reliability of both basins (levels listed are in feet below surface). As this report is specific to the Central Basin, we are only showing the Central Basin Monitoring Well results below.

	January 2024	January 2024
